GOP House Stand Will Decide Fate of Cultural Center Plan

(Editorial on Page 12)

Passing the Illinois Senate 30-22 Thursday afternoon, bills establishing a Metro-East Exposition and Performing Arts Authority to build a major cultural-exposition center here face an uncertain fate in the House of Representatives.

With the House narrowly controlled by the Republican party, much will depend on whatever stand is taken by Governor Richard B. Ogilvie (R. Cook County), who assailed SIU-SW Chancellor John Rendleman last winter on Rendleman's role as executor of the estate of the late Secretary of State Paul Powell.

The exposition center would be built at SIU-SW. Illinois Senate Republican leaders issued a critical statement Thursday, describing Southern Illinois University as "scandal-ridden."

Based on Chicago Hall, the statement questioned appointive and investigative provisions of Senate Bills 1011 and 1012. The legislation was defended by its chief sponsor, State Senator Sam Vadalabene (D. Edwardsville).

The proposal has been described as virtually identical to that under which fire-damaged McCormick Place was rebuilt in Cook County through state legislation. It is a huge convention and exhibition center.

No property, sales or income taxes are involved in the local plan. Construction funds would be derived from the state horse racing tax.

Noting that the GOP has a House majority, Sen. Robert Coulson (R. Waukegan) predicted that state representatives will kill the proposal. He called it "an outrageous attempt to establish an empire, and said use of race track taxes would be harmful to county funds."

No Education Funds Involved Describing remarks by Coulson on the Senate floor as "baseless" and "malicious," Vadalabene said there would be no diversion of funds from education and health programs, as Coulson charged would occur.

Revenue would be derived from pari-mutuel betting and no specific amount is mentioned, other than "surplus funds paid into the Fair and Exposition Authority Reconstruction Fund in excess of \$14 million annually."

Estimated cost of the proposed center is \$15 million.

Madison-St. Clair Counties is the second largest concentration of population in Illinois and the bill proposes that all major

population centers in the state have an opportunity to establish cultural-convention facilities.

abene said. "We are the second most populous area. We have two race tracks, and it is about time some of the revenue was returned to the area."

Pontoon Beach Zoning; New Decision on Clerk

By VALERIE EVENDEN
Press-Record Staff Writer

Mrs. Kathleen Bledsoe, 3834 John Glenn Drive, was appointed village clerk of Pontoon Beach at a meeting of the village board of trustees Thursday evening in the Long Lake Fire Hall.

In other action, the trustees voted to suspend the rules and passed on first reading the first ordinance establishing zoning regulations within the village, and annexed a tract of land, approximately 200 by 300 feet, adjacent to the Pontoon Beach Church of Christ, 4039 Pontoon Road.

Mrs. Bledsoe's appointment as village clerk, as opposed to declaring that she won the office in the April 20 village election, was made on advice of Village Attorney William W. Schooley. Schooley informed trustees the election was nullified when Carl E. Hackney, 33, of 4174 Breckenridge Lane, the only candidate to appear on the ballot for the clerk's post, was declared ineligible.

Was Write-In Candidate Hackney polled 294 votes in the April balloting, compared to 213 votes cast for Mrs. Bledsoe, who was a write-in candidate for clerk.

Later in Thursday's session, Village President Thomas Stai- col appointed Hackney to the post of village treasurer. He succeeds Loren Madison, who

Girl, 3, Playing in Yard Wounded by Stray Bullet

Teresa Reynolds, 3-year-old daughter of Mr. and Mrs. Charles Reynolds, 2912 Roosevelt Ave., was wounded in the chest by a stray bullet about 5 p.m. Saturday as the child was playing with a friend in the rear yard of her home.

Her condition was reported good today at St. Elizabeth Hospital.

The bullet was believed to have been fired from a gun on the levee nearby where a group of youths had been reported firing a gun. Granite City police went to the area but were unable to locate any one of the group.

The child's mother, Mrs. Alma Reynolds, said that she was in the back yard talking with a neighbor, while Teresa was playing with a friend, Debbie Elkins.

Teresa suddenly fell to the ground as the bullet struck her near the center of the chest, Mrs. Reynolds said. The mother said the bullet apparently struck a rib and emerged from the side.

A neighbor found the bullet, a .22 caliber lead missile, "which was still warm when he picked it up," Mrs. Reynolds added.

Mrs. Reynolds said she was

told the fact that the bullet was of lead and that it struck a rib, causing it to glance along the rib, undoubtedly saved Teresa's life.

Madison county authorities were notified by Granite City police of the shooting activity along the levee, but Madison deputies said they also were unable to locate anyone in the area.

GC Legionnaires to Host 22nd District Convention

Approximately 1,500 American Legion and Auxiliary members are expected here Sunday, June 13 for the 22nd District convention, which will climax the annual district convention held this year by the Tri-City American Legion Post 113.

Convention sessions are scheduled Saturday and Sunday, June 12 and 13. About 500 legion and auxiliary delegates and alternates will take part in the convention meetings. Members from American Legion posts in five counties of the 22nd District will

arrive for the district parade along Madison Avenue from the Granite City High School to the Fire Department. The parade will begin at 3 p.m. June 12.

The convention will open with auxiliary registration at the post home, 84th Street and Madison Avenue, from 9 to 10 a.m. Saturday, June 12. Meetings of the auxiliary will begin at 10 a.m. The Commander's Banquet and Ball, honoring the outgoing district commander, Robert Douglas of Granite City, will be presented to the school board at its next meeting June 7.

Area Pays Tribute to War Dead

The weather was perfect on Memorial Day; masses of U. S. flags fluttered in the breeze. Local veterans' group and Boy and Girl Scout units were

re-splendent in their uniforms. Few Quad-Cityans from the community-at-large were present, however, for the annual Memorial Day services at the city hall in Granite City, on the lawn at Venice-Madison American Legion Home in Venice, or at Memorial Park, opposite St. Elizabeth Hospital.

A colorful "Parade of Flags," sponsored by the local Disabled American Veterans Chapter and Auxiliary in which veterans and youth groups were well represented, carried the flags inscribed with the names of local war dead from the DAV Building on 18th Street to Memorial Park, Niedringhaus and Madison avenues, where Jim Tapp sang the National Anthem.

Participating in the parade were Amvets Post 51 and Auxiliary; American Legion Post 113 and Auxiliary; Quad-City Navy Mothers, Unit 850; Veterans of Foreign Wars Post 1300 and Auxiliary; and Daughters of Union Veterans, Sarah Jane McEvers Tent 90.

In services at 9 a.m. Sunday at the city hall in Granite City, DUV Tent 50 under the leadership of Mrs. Gussie Cheatham, said tribute to those fallen in past wars and the present conflict in Vietnam.

Brief remarks were offered by Mayor Donald Barney and the invocation was given by Lieutenant Donald R. Noyes, Salvation Army officer. "Taps" was played and a wreath was laid at the Memorial Stone by the veterans' organizations.

Venue Services Special memorial services took place Sunday afternoon at Post 307 Home on Broadway, Venice, where white crosses

Talks Continue After Teacher Pay Decision

Hope has not been given up on reaching an agreement for Granite City teachers prior to the end of the spring term Friday.

Talks are continuing following last week's court ruling granting faculty members an additional \$182,000 in pay for the 1970-71 year.

The school district had figured increases over 1969-70 at \$300 per teacher for the nine-month term and the decision by Circuit Judge Paul C. Vertichio of Carlinville was that each qualified for \$550.

The ruling followed a trial held at the Madison County Courthouse. Opposing lawyers were Burton C. Bernard for Teachers' Local 743 and William Schooley for the school district.

The decision cited special "density" tax aid voted at a special state legislative session in 1970 for heavily-populated school systems. A pact between the union and school district called for \$50 increases for each teacher and a total of \$60,000 boost in state aid beyond \$90,000.

A report on the ruling and on negotiations is to be presented to the school board at its next meeting June 7.

Pollution Hearings Resume Tomorrow

Hearings on charges of alleged air pollution by Granite City Steel Co. will resume tomorrow in the courtroom of the Granite City Hall. It will be the third session of hearings by the Illinois Environmental Protection Agency.

A hearing set for today was cancelled by the EPA. Subsequent sessions are scheduled June 10 and 11 and June 17 and 18, if necessary.

The EPA is attempting to determine if the steel company is in violation of state air pollution regulations. If sufficient evidence is obtained, the company may be subject to substantial fines by the EPA.

Telephone Workers Here Receive Strike Ballots

Members of District 6 of the Communications Workers of America, including members in the Quad-Cities, will be receiving strike vote ballots in the mail this week in a nationwide vote to strike the Bell Telephone System this summer as district contracts expire.

If union members nationwide vote to strike, CWA President Joseph A. Beirne will announce a strike date during the annual convention which opens June 14 in Kansas City, Kan.

Those districts with expired contracts will strike immediately but in the St. Louis metropolitan area, including the portion of Illinois served by Southwestern Bell, contracts do not expire until July 17, according to Paul G. Gray, assistant to the district 6 vice-president.

A nationwide strike would affect the Western Electric installation department which installs central office equipment for the Bell System, and in those offices where the installers are working, picket lines would be set up.

"Our members would honor those picket lines, but it would only affect those working in central office buildings," Gray said.

Gray said the strike ballots are being returned to the accounting form of Ernst & Ernst, Washington, D.C., for tabulation, and the results will be presented to the board during the convention.

He said that a new offer from Bell Telephone Co. could stop the strike, even if the membership approves the walkout.

The company on May 20 offered wage boosts of about 11%, the first year and 3% for each of the following two years, but the CWA board rejected the offer as being "inadequate."

The union is seeking a one-year contract with across-the-board increases of about 25%.

Women's Groups to Plan Events for GC Diamond Jubilee Celebration

A combined text and planning session for representatives of Quad-City Women's organizations officially will kick off this year's activities in conjunction with the Granite City Diamond Jubilee celebration, under sponsorship of the Women's Participation Committee headed by Mrs. Emylee Alford.

The affair is to take place at 8 p.m. Tuesday, June 8, at the Wilson Park ice rink.

Entertainment, an old-time fashion show, and light refreshments are planned by the Celebration Belles Committee. Members of the committee are Lily Chaboude, chairman; Rebecca Slate, Dorothy Neminger, Donna Hogan, Carol Chaboude, Fanny Epstein, Catherine Michel, Mary Henn, Dolores Allen and Valerie Stevens.

A variety of fun projects is being planned, such as fashion shows, old and new, teas, baking contests and little ladies events.

Letters of invitation have been mailed to all women's organizations to attend this gathering to discuss ideas already submitted and make new suggestions for making the celebration an enjoyable historic occasion for residents of the community.

A Celebration Belles certificate will be issued to each individual who purchases a membership button and a Celebration Belles charter is to be issued to each organization with the names of their members who sign as civic minded Jubilee Boosters.

Cost of the certificates which include a membership button will be \$1 and for an additional \$1 an old-fashioned bonnet may be purchased. Organizations who wish to obtain a charter for the anniversary celebration must register a minimum of ten names. A "Little Ladies" membership will cost 50 cents and the applicant will receive a Miss Jubilee button.

Another activity planned for the summer months to promote the jubilee celebration is operation of an old-fashioned General Store at 1930 Edison Ave. Co-chairmen of the project are Mrs. Frankie Hickey and Mrs. Alice McGhee. Items contemporary to the early years in

Amvets Ask Park District For Memorial to War Dead

A request that a memorial listing the names of area men killed in military service be placed in permanent display in Wilson Park has been presented to the Granite City Park Board by Amvet Post 51.

Steve Konkovich, representing the post, submitted the request. Konkovich is to report back to the board after securing a list of the names that would be posted in such a memorial.

A request that the Mohawk Mini-Squirt hockey team be allowed the same ice time next season as they were given last season also has been made to the board by Arnold H. Fleishman.

The matter of ice time and use of the park facilities by groups not completely made up of park district residents has

been referred to the rules committee for consideration. Henry Gabriel, board president, has pointed out that the first obligation of the park board is to the residents of the park district. As park district programs expand, outside groups will have to be excluded, he said.

Gabriel announced new standing committees, Clarence Baumeier is chairman of the Municipal Relations Committee with Paul Thompson and Barry Loman as members.

Loman was named chairman of the Finance Committee, with Milton Worthen and Thompson as members.

The Rules Committee includes Thompson, chairman; Worthen and Baumeier; the Engineering Committee includes Worthen as chairman, with Loman and Baumeier as members.

Nameoki May Use Funds for Lights

A legal ruling defining the authority of Nameoki Township to help finance protective measures for children attending Nameoki schools will permit the township highway department to pay for installation of traffic signal lights at Maryville and Kreiner schools, Supervisor Louis Whitsell explained today.

A ruling given the Nameoki Township Attorney William Schooley, which held that the township cannot legally share the cost of maintaining street crossings at school crossings, did not include a similar reference to crossing signal lights as first reported by Whitsell said.

Schooley and Whitsell said state statutes legally permit township highway fund expenditures for the lights, but excluded the authority to pay for cross-guarding salaries out of the town fund.

Nameoki town officials agreed to pay for installation of traffic lights at Maryville school, and also at Kreiner school off Route 40 in State Park Place, following an accident last Jan. 10 at Maryville school in which one girl was killed and another critically injured.

State Senate OK's Hike in State's Attorney Salaries

Despite objections by several small Southern Illinois counties, the Illinois State Senate approved substantial salary hikes for state's attorneys Thursday by a vote of 25-8. County officials from the objecting areas say the raises may bankrupt their counties.

If the bill is signed into law, state's attorneys will receive a minimum salary ranging from \$15,000 to \$22,000 per year in smaller counties. In Cook County the salary may range up to \$32,000.

The state's share of the salaries is raised under the bill from the present \$7,300 to \$12,000 with the individual counties absorbing the remainder of the salary hike.

The county's contribution is based on population. In counties of less than 80,000 population the county board must fix the salary of the state's attorney between \$24,000 and \$27,000 with \$12,000 paid by the state. Counties with populations between 80,000 and one million the county share must be set between \$15,000 and \$20,000 and in Cook County the county share must be between \$25,000 and \$34,000. The state payment of \$12,000 would be additional.

Each county board is to fix the salary between the minimum and maximum.

Presumably the county share above the \$7,200 paid by the state, is \$3,800 to \$10,300 for counties under 10,000 population; \$5,200 to \$11,000 for counties between 10,000 and 20,000 population; \$6,800 to \$13,300 for counties with 20,000 to 30,000 inhabitants; and \$8,300 to \$14,800 for counties with populations of 30,000 to 40,000. From 40,000 to 50,000 population counties the salary increases to between \$9,800 and \$16,800; counties between 50,000 and 60,000 would pay \$11,300 to \$17,000 and for Cook County from \$25,000 to \$34,000.

Each county board is to fix the salary between the minimum and maximum.

17 Complete Scuba Courses at Lake Dive

Miss Linda Malotki, a former competitive swimmer for Paddlers Swim Club, topped a list of 17 graduates in a scuba diving course taught at the Tri-Cities Area YMCA, according to the class instructor, Bob Waggoner, armstrong of the Bubblemaster Scuba Club of Granite City.

To complete the entire training series, the graduates participated during the weekend in their initial open water dive at Ball Shoals Lake, Mo., under supervision of Waggoner and members of the local scuba club.

Theoretical and pool training for the class concluded at the YMCA two weeks ago. The instructor said, adding that a new course is scheduled to start this month.

Persons interested in taking part in the training program may call Waggoner, at 452-5355, or register at the East Side Diver Supply Shop, 1340 Niedtghaus Ave.

Other recent graduates who made their first open water dive this weekend were Mary Lou Richardson, Susan Cavins, Ken O'Neill, Jennifer Sage, Michael Shihop, Cliff Yeager, David Norton, Martin Bartz, William Pisel and Roger Foutan, all of Granite City; Keith Osterhage, Waterloo, Iowa; Brad Cross, Pontoon Beach; and Robert Smith, Carbondale.

Mike Henderson served as assistant instructor for the course, Waggoner said.

Nursery Operator Slated For SIU-SW Honor Award

Southern Illinois University-Edwardsville will present its Distinguished Service Award to Ernest E. Tosovsky at commencement exercises June 11.

Tosovsky came to the U. S. from Austria-Hungary in 1903 and founded Home Nursery Greenhouses, Inc., one of the country's largest wholesale nursery firms.

Deported from their homeland — now known as Czechoslovakia — Tosovsky and his mother arrived in Edwardsville Christmas morning in 1903 to join his father, John Tosovsky.

A colonel in the Czech army and an escaped political prisoner, John Tosovsky had been smuggled to the U. S. by Czech sympathizers. In September, 1903, he found himself in Edwardsville where a job in a coal mine had been obtained for him.

Three days later he and another man were killed in a mine accident. A picture of the double funeral services on Sept. 20, 1903, hangs in Ernest Tosovsky's office.

Six-year old Ernest and his mother reached Edwardsville without knowing about the mine tragedy. Czech friends helped them. The boy entered Central Grove rural school, graduating from the eighth grade when he was 16. According to him, "Can't isn't in Dad's vocabulary."

Mike Henderson served as assistant instructor for the course, Waggoner said.

When doctors told him he would have to have his leg amputated following a tractor accident in 1961, Tosovsky refused. Today he walks on it with barely a limp.

For 18 years Tosovsky was president and secretary of the Center Grove School District. He was president of the Edwardsville YMCA in 1966-67, during which time a successful fund drive was made to erect a new building, dedicated in 1969.

Tosovsky is also a member of the Illinois Nurserymen's Assn. and the American Florist Society.

A past director of the American Association of Nurserymen, was 13. His only other formal education includes correspondence courses from Brown Business College in Peoria, where he completed work in business management and typing.

Began Small Nursery

Tosovsky became an American citizen in 1923 and that year started a small local nursery. Today it is one of the largest wholesale nursery outlets in the country.

"He's the only Horatio Alger I know," Charles Schweitzer, assistant director of the SIU Foundation said summing up Tosovsky's career.

His two sons—Ernest A. and Charles—attribute his success to grit and to the fact that he never turns his back on a challenge. Growing vegetables and small fruit to help his mother earn a livelihood.

A member of the Edwardsville Rotary Club since 1943, Tosovsky holds a perfect attendance record and has served on almost all of its committees. He was local president in 1952-53 and governor of District 646 in 1955-56.

Appointed a volunteer abroad in Rotary International World Service in 1967, he established an experimental tract of land in Honduras and has shipped many truck loads of equipment and nursery stock to that country. On his last trip, he rode a banana boat, taking cattle and sheep to Honduras.

Helped Better Understanding

"It has been a source of great satisfaction to me," he says, "to have been able in a small way to help create a better international understanding through Rotary and Rotarians in many foreign lands."

Through the Rotary Foundation he helps students from foreign countries study in the U.S. At SIU-SW he set up the Ernest and Mary Tosovsky Endowment Fund, the interest from which is used to provide short-term loans to foreign students, and the Mary Meek Tosovsky Grant Fund to assist other Southwest campus students.

Tosovsky courted his wife, the former Mary Meek, in the house which once stood on the site of the central academic core of SIU-SW. She became his bride in 1919. Their two sons and daughter Dorothy, now Mrs. Gene Donner, still recall the fun they had playing as children at the Meek home.

Ernest and Mary Tosovsky have traveled widely in the past few years. Currently in Australia for the international convention of Rotary, they have attended similar conventions in Japan, Switzerland and France.

In 1964 they visited behind the Iron Curtain, where he was almost deported a second time for giving money to his relatives in Czechoslovakia.

Three bills appropriating \$30-million to aid non-public elementary and high schools were approved by the Illinois House Thursday. The bills were sent to the Senate.

A second measure provides \$4.5-million in benefits to non-public school pupils of low-income families and a third measure would appropriate \$5-million for either public or non-public innovative elementary and secondary school educational programs.

June Brings Thoughts of Wedding Bells, Normandy Invasion, Summer

June rhymes with honeymoon and the month is noted principally as a time for weddings. But it has many other distinctions.

Today, June 1, is the anniversary of the separation of Kentucky from Virginia in 1792, forming the 15th state. Four years later, on the same day, Tennessee became the 16th state. On this day, Lajkonik, a procession follows a rider in medieval Tartar costume to commemorate the defense of Cracow, Poland, against the Tartars.

June 2 was the day in 1896 when President Grover Cleveland was married in the White House. It is Hristo Botev Day in Bulgaria, honoring the poet and national hero who fell in fighting against the Turks in 1876. The republic of Italy was proclaimed on June 2, 1946.

Jefferson Davis was born June 3, living from 1803 to 1889, and Confederate States Day is observed on that day.

The White House was completed on June 4, 1800, and June 4 also is Old Maid's Day, honoring "all old maids for the good they have done the world."

On June 5, 1933, the U. S. went off the gold standard. It is Constitution Day or Groundsday in Denmark, where a free constitution was adopted June 5, 1847.

June 6, 1944, "the longest day in history," saw Operation Overlord carried out, commanded by General Dwight D. Eisenhower. Allied forces landed on the beaches of Normandy, France, marking the beginning of the end of World War II and the end of German conquest of Europe.

Congress approved a penny postal card on June 7. On that day in 1869, Daniel Boone began his exploration of Kentucky.

"Frank Lloyd Wright, the late architect, was born June 8, 1869, in Richland Center, Wis.

Congress on June 9, 1943, authorized pay-as-you-go income tax deductions. It is the birthday of Cole Porter, song writer. And June 9 is St. Columba's Day, the day when an Irish priest saved a young boy from drowning in the year 521 A.D.

On June 10, 1776, the Continental Congress appointed a committee to draft the Declaration of Independence. June 10 is the Day of Portugal, marking the birthday of Luis de Camoes, national poet.

Hawaii will be in the spotlight June 11, Kamehameha Day. The state holiday honors the 16th century king, Kamehameha I, who was the first to rule over all of the islands. Parades, pageants and luaus are held to mark the day.

June 12 is the official birthday of the queen of Great Britain, Elizabeth II. In the Philippines, which declared itself independent of Spain on June 12, 1898.

June 13 is the Canadian Father's Day and it is the anniversary of the World War I landing in France by units led by General John J. Pershing. On this day in 1935, U. S. Senator Huey Long of Louisiana filibustered for 15 hours and 5 minutes.

June 14 is noteworthy for two reasons. On June 14, 1775, a Congressional resolution established the Army as the first

'McCormick Place' for No. 2 Area Is Target Of Unfair Attack by GOP Assembly Leaders

Unconscionable bias against Downstate Illinois is being shown by some Illinois Republican leaders in trying to defeat the bill for creation of a cultural authority and construction of an exposition center at Southern Illinois University's Southern campus.

Instead of basing their case on an accurate review of the proposal's advantages and disadvantages, GOP legislators are stirring up a smokescreen, making use of distortion and geographic prejudice.

Governor Richard B. Ogilvie, a Cook County Republican, ought to dissociate himself from the tactic by making a strong and prompt statement in favor of Illinois' passage of the legislation, which passed the Senate 30-22 Thursday afternoon. It may be difficult for him to do in view of his criticism of SIU's Chancellor John Rindelman a few months ago, but the governor would gain much respect if he displayed such affirmative leadership.

A statement released to the press by Republican Senate leaders shows the kind of attack that has been launched:

"Democratic-sponsored legislation giving one Democrat senator control over the expenditure of \$20 million of state funds and unlimited authority to conduct with him in St. Clair and Madison Counties passed the Illinois Senate today (May 27). The Republican Senate leadership severely criticized the legislation."

The bills, sponsored by Senator Sam Vadalabene (D, Edwardsville) will establish a Metro-East Exposition and Performing Arts Authority associated with the scandal-ridden Southern Illinois University at Carbondale.

The Press-Record does not consider SIU "scandal-ridden" and we strongly condemn supposedly responsible General Assembly officials for resorting to such an unjustified, scatter-shot method of trying to prevent establishment of an exposition center in the No. 2 area of population density along the same pattern utilized to rebuild McCormick Place in the No. 1 population center.

The GOP Senate statement goes on: "Vadalabene will effectively control the operations and spending of the Authority, including a state guarantee of \$13 million in bonds to construct the Authority buildings. The bonds will be paid off, the total will be \$30 million."

"The legislation also contains a provision granting the Authority power to investigate any conditions in which it has an interest within two counties. They have subpoena powers usually restricted to the courts or directly-elected legislative bodies. Vadalabene did not explain why

Governor Believes That Revenue Sharing Is Succeeding in Illinois

By GOVERNOR RICHARD B. OGILVIE

Revenue sharing — Illinois style — is a booming success story and has helped hold down or reduced local property taxes.

he wanted this extraordinary power or who he planned to investigate in the two counties."

The statement continues, "Money to finance the Authority will come from the state horse racing tax. The local area is not required to financially participate in the Authority. Sen. Robert Coulson (R, Waukegan), Senate assistant Republican leader, noted that the bill will 'divert a large sum of funds from education, public health and mental health needs to a narrow special-interest purpose.'"

"Vadalabene gained his control over the Authority through the appointment power of Authority members. The Authority will consist of 13 members, 12 appointed by the governor and the governor serving as the 13th. However, the governor must appoint six members designated by Vadalabene."

"Only the six Vadalabene spokesmen are necessary for a quorum or the passage of Authority ordinances, including the letting of contracts and spending proposals. Thus, the six Vadalabene men call a meeting and conduct authority business without the governor or the other appointees having any knowledge of the meeting."

Such statements appear to go far beyond what the legislation outlines.

Sen. Vadalabene is not mentioned in the bill; his elective office, on which he has no lifetime hold, is mentioned in the same way that the position of a Chicago mayor is utilized in the McCormick Place law.

The local legislator's response: "The Republican leadership in the Senate released to the press a statement which made several scurrilous statements about me and the passage of Senate Bills 1011 and 1012. In all my years in the legislature, I have conscientiously tried to do the best job I could for my district."

"If I were not so saddened by the inaccurate, unfounded and vindictive statements made by the Republican leadership, I would be deeply angry. The statement insults not only me, but all the people of Madison and St. Clair Counties and Southern Illinois University. Those who know me will realize how baseless the charges are."

"I further realize that the malice shown in the statement is exceeded only by the lack of knowledge of the legislation on the part of those issuing the release."

Contrary to the lies set forth in the statement issued by the Republican leadership, the full Senate has to advise and consent in the appointment of all members of the district. Recommendations for appointments—and they are recommendations—must be made by the senator representing the district, whether it be me or someone else. The statement was so grossly false and misleading that I feel I am entitled to a public apology.

Senate Bill 1011 amends the Illinois Horse-racing Act to provide that all surplus funds paid into the Fair and Exposition Authority Reconstruction Fund in excess of \$1.8 million annually shall be transferred to the Metro-East Exposition and Performing Arts Fund in the State treasury until that fund accumulates sufficient money to pay the interest and principal on bonds issued by the Metro-East Exposition and Performing Arts Authority for purposes of constructing the Metro-East Exposition and Performing Arts Center.

Bill 1012 creates the Authority for the two counties and authorizes it to issue revenue bonds. It prohibits levying any tax, creates a governing board and gives it rights and duties. The bill allows the board to make appropriations to help retire outstanding bonds.

The investigative power in Section 26 of Law 1012 appears to be primarily intended to allow the Authority to make reasonable control over its operations in order to guard against waste and inefficiency.

The legislation should be enacted and delivered to the people of Gov. Ogilvie and all state representatives—Republican and Democratic, Chicago and Downstate.

It was my hope when we developed the revenue sharing program that local government would take the opportunity we were providing them and improve their services. These previously unmet needs are being met.

My expectations were justified. The list of new and different projects has been growing and counties attributing to the income tax sharing program is almost as long as the list of communities responding to the Department of Local Government Affairs' program.

Some towns started capital improvement projects which had long been needed but had been deferred for the lack of funds. Others have increased salaries and the number of employees particularly in police and fire service.

Danville is upgrading its police community relations program, while Niles funds a municipal family service center. Herrick makes garbage pick-up free.

Highland Park built a building for police station and Rantoul built a civic center and auditorium which had the pleasure of dedicating recently.

In communities with populations of less than 1,000, the large number of respondents said they were using their income tax sharing to supplement state motor fuel tax money on street improvement and repair.

From communities of more than 10,000 in population, the largest number of respondents reported significant tax reductions, with 27 out of 49 reporting tax cuts and the rest reporting broadening of services without tax increases.

All in all, we have a picture of state aid, being used as it was intended.

We're keeping local government functioning, growing and where needed, and providing badly needed protection to the people of Illinois.

We could have followed the same system the federal government has been using to aid local communities and provided all this aid on an earmarked program basis.

It would have meant setting up a whole new bureaucracy and developing the programs, with guidelines and applications that would have eaten up immense amounts of time and money.

And we still could not have satisfied every community.

As it is, the administrative cost of our revenue sharing program is less than \$10,000 a year and the recipients are free to create their own programs with the money.

The genius of local government is the process of developing diverse solutions to diverse problems.

Because we attach no strings to our revenue sharing, it helps that process work in Illinois, just as so many of us hope it will be allowed to work throughout the nation.

JUNE DAIRY MONTH

June is officially designated as Dairy Month. Because of this, let's talk a bit about milk and the nutritional contribution that milk products make to the nation's food supply. Dairy foods — one of the four food groups — give us, along with many other vitamins and minerals:

- More than three-fourths of the national supply of calcium.
- More than a fifth of the protein.
- More than two-fifths of our riboflavin (one of the B vitamins) supply.
- Over a third of the nation's phosphorus.

And weight watchers will be interested to know that along with all this nourishment, milk and its products give us only 10% of the calories in our national food supply.

A Convenience Food
Milk is probably the original convenience food — not just from mother to infant, but arriving in your home as it does, ready to pour and serve. And the technology that brings it to you each day from farm to family is as advanced as any in American industry.

What are the standards for fresh whole milk? Well, generally, the whole milk contains not less than 3.25 percent milk fat and not less than 8.25 percent milk solids. Individual states set their own laws and these percentages can vary somewhat from state to state. Most whole milk in the United States is pasteurized and homogenized.

An 8-ounce glass of whole milk contains about 160 calories. In contrast to whole milk, skim milk is fresh whole milk that has had the fat removed. Thus, skim milk contains only an average 90 calories for each glass. Again, standards in different states vary but the milk fat in skim milk usually is from 0.1 percent to perhaps as high as two percent. Skim milk's nutritive value is about the same as whole milk except for the milk fat and vitamin A that it does not contain. Many dairies though, add vitamin A and D.

Two-Percent Milk
Then there's the so-called two percent milk. I note this term is often misunderstood by homemakers. What is it? As the name implies, two percent milk contains two percent milk fat. Thus, it is a richer product than skim milk, but does not have as much fat as whole milk. It is made from fresh whole milk and skim milk but does not have as much as 100 calories per 8-ounce glass. Many dairies add nonfat dry milk and various vitamins and/or mineral preparations.

Especially as warmer weather approaches, make sure that you're as careful in handling milk after it is in your home as dairymen are in bringing it to you from the farm to you. Your general rule should be to keep milk clean, fresh and refrigerated. Individual states set their own laws and these percentages can vary somewhat from state to state. Most whole milk in the United States is pasteurized and homogenized.

An 8-ounce glass of whole milk contains about 160 calories. In contrast to whole milk, skim milk is fresh whole milk that has had the fat removed. Thus, skim milk contains only an average 90 calories for each glass. Again, standards in different states vary but the milk fat in skim milk usually is from 0.1 percent to perhaps as high as two percent. Skim milk's nutritive value is about the same as whole milk except for the milk fat and vitamin A that it does not contain. Many dairies though, add vitamin A and D.

Two-Percent Milk
Then there's the so-called two percent milk. I note this term is often misunderstood by homemakers. What is it? As the name implies, two percent milk contains two percent milk fat. Thus, it is a richer product than skim milk, but does not have as much fat as whole milk. It is made from fresh whole milk and skim milk but does not have as much as 100 calories per 8-ounce glass. Many dairies add nonfat dry milk and various vitamins and/or mineral preparations.

Especially as warmer weather approaches, make sure that you're as careful in handling milk after it is in your home as dairymen are in bringing it to you from the farm to you. Your general rule should be to keep milk clean, fresh and refrigerated. Individual states set their own laws and these percentages can vary somewhat from state to state. Most whole milk in the United States is pasteurized and homogenized.

Glass made its first appearance almost at the dawn of history when the Egyptians began glazing their pottery by dipping it in a molten mass of silicate and soda, from which glass was subsequently made.

This was about 4,000 years ago. Some 3,000 years later we find that colorful glass beads are treasured as fine jewels. And still later, in about 1450 B.C., the Egyptians had built a thriving glass works, making glass beads, bowls, plates and cups—all of which were passed from generation to generation as precious heirlooms.

The hall was decorated in the wedding colors, pink and white, with pink parasols and white wedding bells adorning the tables. As arrangement of white snapdragons and baby mums centered the bride's table.

Games were played and refreshments were served by Misses Vicki Pieper and Pat Perdue.

Guests included Mrs. Margaret Crawshaw and Mrs. Eleanor Cassy, mothers of the bride and groom-to-be, and Mesdames Mary Ann Jaimet, Betty Pieper, Carol Schaff, Lucy Willis, Beverly Willis, Donna Pieper, Dorothy Crawshaw, Mary Pieper, Ida Hall, Cora Jaimet, Elva Pilch, Christine Filipp, Judy Filipp, Mitchell Aramowicz, June Bride-Elect Feted at Party

MRS. STANLEY D. HOFFMAN JR., the former Miss Jennifer Bailey, a daughter of Mr. and Mrs. Hancel Bailey, 2116 Lynch Ave., whose wedding took place Saturday evening at the Third Baptist Church.

Jennifer Bailey Wed in Spring Garden Setting

A spring garden scene in the sanctuary of the Third Baptist Church provided the setting Saturday evening for the wedding of Miss Jennifer Bailey, a daughter of Mr. and Mrs. Hancel H. Bailey, 2116 Lynch Ave., and Stanley D. Hoffman Jr., the son of Mr. and Mrs. Stanley D. Hoffman Sr., 1203 Clark Ave.

The bride was escorted by her father down a stairway at the rear of the altar, along which the bannisters were decorated with looped bows and greenery, into a garden setting created by a white tiered cart holding arrangements of spring flowers.

Beneath a garden archway of spring blooms and multi-colored bows, the couple exchanged their vows before the Rev. Carl Watkins in a 7 o'clock candle-light ceremony.

The former Miss Bailey chose a floor length gown of white organza fashioned with an Empire waistline, featuring rows of lace on the bodice. The lace was repeated at the high neckline and down the long sleeves ending in ruffled cuffs. A white tulle skirt held several rows of lace was held in place at the back waistline of the A-line skirt.

A crown crown of seed pearls formed the headpiece and secured a triple-tiered, shoulder length bridal veil, and she carried a plateau basket filled with daisies in rainbow colors.

Mrs. Renee Keck, sister of the bride, was matron of honor and the bridesmaids were Mrs. Gail Frazier and Miss Robyn Champion, cousins of the bride, and Mrs. Laura West, sister of the groom.

They were gowning in floor length dresses of nylon tulle sheer over tulle designed with scoop necklines edged with a tiny ruffle and short puffed sleeves. The slightly gathered skirts ended in a flounce ruffled at the hemline. To accent the bodice, a row of multi-colored flower trimming encircled the waistline ending in a flat bow at the front and long streamers. The matron of honor wore an aqua gown and the bridesmaids were in pale pink. They had crocheted hats as headpieces in colors to match their gowns.

Wendi Bono, a niece of the bride, wore an identical frock in pink. The attendants carried plateau baskets filled with colored daisies.

Jan Gitcher served as best man, Randy Keck, a brother-in-law of the bride, Steve West, brother-in-law of the groom, James Valicoff, Philip Spickard, a cousin of the bride, and Ray Bono, also a brother-in-law of the bride, completed the corps of groomsmen and ushers.

Clark Alan Bono, a nephew of the bride, was the ring bearer.

Craig Bailey, a brother of the bride, and Kirk Champion, the bride's cousin, lighted the candles.

Mrs. Bailey chose for her daughter's wedding a mink green silk shantung coat and dress ensemble trimmed with Venice lace.

The groom's mother selected a lace dress in azure blue fashioned with a pleated skirt and white accessories. Both mothers wore white carnation corsages.

Mr. and Mrs. Hoffman entertained members of the wedding party at a rehearsal dinner at the Rose Bowl Friday evening.

A reception for guests was held in the church fellowship hall immediately following the ceremony.

Following a wedding trip to Tan Tara at Lake of the Ozarks, the newly-married couple will reside in Granite City.

The former Miss Bailey, a 1969 graduate of Granite City High School, is employed at Mercer Mortuary.

Mr. Hoffman was graduated from Granite City High School in 1968 and attended SIU-Carbondale campus. He is now a student at Washington University, St. Louis.

Out-of-town guests included Mr. and Mrs. N. R. Bray, Ron Johnson and William R. Bray, all of Springfield, Ill., Mrs. Raymond Walsh and daughter, Kathy, of Peoria, Ill., Mrs. Don Williams of Daytona, Fla., and Mr. and Mrs. Vern Ahl of Mt. Vernon, Ill.

Miss Lois Kueker Weds David Lynch Saturday

Miss Lois Ann Kueker and David George Lynch were united in marriage in a candle-light ceremony Saturday, at Hope Lutheran Church.

The Rev. J. Louis Oetting officiated at the 6 o'clock ceremony before an altar banked with white flowers and greenery.

Mrs. Alice Land, soloist, sang several songs during the ceremony, accompanied by Albert Froelich at the organ.

Given in marriage by her father, the bride chose a gown of white satin peau and Venice lace over tulle. The bodice of Venice lace was designed with a high neckline and long sleeves of satin peau, gathered to a fitted lace cuff. A full length train was designed along A-line style.

A long veil was accented with a border of Venice lace and fell gently to the chapel length train. She carried a bouquet of white roses, baby's breath and greenery tied with long white satin streamers.

Miss Cathy Zenik was maid of honor, serving with Miss Kathy Burkard, Miss Cheryl Jensen and Mrs. Arlene Lenser, the bridesmaids.

They wore identical floor length gowns of apricot chiffon over tulle, fashioned with Empire waistlines. The bodice neck line and high-style sleeves were profusely accented with ivory Venice lace.

On their hair the attendants wore Juliet caps of apricot chiffon trimmed with Venice lace and tiny seed pearls and they carried wicker baskets filled with arrangements of spring flowers, daisies and baby breath.

Patti Kueker, a God-child of the bride, and Sandy Zangaris, the groom's niece, were flower girls. Their frocks of apricot chiffon over tulle and tulle were styled with Empire waistlines, Venice lace outlined waist, bodices and rounded necklines.

Their headpieces were bows of matching lace and they carried small white wicker baskets to match the adult attendants.

Brad Sendar, also a God-child of the bride, was the ring bearer.

Mr. Lynch selected his brother, Richard Lynch, as best man, with James Kueker, the bride's brother, William Reimers and Paul Schlett as groomsmen.

Mr. Lynch selected his brother, Richard Lynch, as best man, with James Kueker, the bride's brother, William Reimers and Paul Schlett as groomsmen.

The groom's mother chose a pink shantung dress trimmed with white lace and complemented with white accessories. Her corsage was a white cymbidium orchid.

A reception was given immediately following the ceremony at the Lewis and Clark restaurant in East. After a wedding trip, the newly-married couple will reside in Anderson, Indiana.

The former Miss Kueker graduated from Granite City High School and SIU-SW and is a first grade teacher at Stallings School. She is on the governing board of the SIU-SW University Center and is a member of the church choir.

Mr. Lynch was graduated from Granite City High School and the University of Missouri-Rolla. He was a member of the University of Missouri-Rolla marching band, the Drifters, a stage band, and other campus organizations. At the present time he is employed as an engineer at the DeLoe-Remy Co. in Anderson, Ind.

City Hires Attorney For Police Board Case

Employment of Granite City Attorney Leo Konzen as a special attorney for the Granite City Board of Police and Fire Commissioners, in a case in which a woman has brought charges against a policeman for alleged mistreatment has been approved by the city council.

The action followed considerable discussion in which City Attorney Leon Scroggins was asked for an opinion as to whether or not he—as the city attorney—could handle the

Scroggins said that under Illinois law, cases involving hearings by the police and fire board require a special attorney, and that while he could sit in on the case as a representative of the city, police board testimony would have to be handled by a separate lawyer.

At first, Alderman Roy Poulos who presented the police board request suggested only that the attorney be granted to employ an attorney without naming anyone for the job. Mayor Donald Partney said he thought it would be more appropriate to authorize the police board to hire an attorney, but at the same time he pointed out that Konzen had been employed in similar cases in the past and is well versed in the law regarding such cases.

As a result, Poulos obtained council approval to employ Konzen to handle the case.

Scout Council Studies Possibility of Merger

The Executive Board of the Cahokia Mound Council, Boy Scouts of America, has decided to further investigate the possible merger of the local Boy Scout council with the St. Louis metropolitan area and other Illinois councils. It was reported this week. Decision to study such a move was supported by a 9 to 7 vote by board members.

The plan for the mergers, which would involve the Alton area, Belleville and East St. Louis in addition to the Southern Illinois sector served presently by the scout office located in Herrin, Ill., was presented to the local board by G. H. Sternberg, local contractor and a member of the Region Seven long-range planning committee.

Dr. Merrill Ottwein of Edwardsville, council president, would appoint three men to further investigate the merger in the areas of camps, property, program and legal aspects.

Headstart Classes in GC Begin June 7 at 5 Centers

Children will attend the center that corresponds with the grade school district in which they reside.

The director said the Headstart program will commence June 7 and conclude July 30. Daily sessions will be held from 8:30 a.m. to 12 noon.

Pre-school and primary teachers from the Granite City school system will provide the instruction, assisted by a teacher's aide and volunteers that may wish to help. Froender explained.

Youngsters enrolled in the Headstart program will be provided a physical examination and dental inspection. Two snacks will be provided each day and the children will take part in trips to the St. Louis Zoo and similar places of interest.

Story-telling and programs of records, slides and movies also will be part of the overall Headstart curriculum, Froender said.

"It is felt that such a program of pre-kindergarten activities will be most helpful in preparing a child to enter school next fall," the director commented.

City Needs Help in Solving Dog Problem
City council members have agreed to a suggestion by Alderman Paul Schuler that the council's Sanitary Committee meet with state officials and local veterinarians to discuss a possible solution to the mounting dog problem in Granite City.

Schuler said he wants to solicit help because "the dogs are taking over the city. Mayor Donald Partney related several serious dog problems, including that of one child who is now taking rabies shots, but said the Granite City's humane officer is doing the best job possible under present circumstances.

A number of aldermen have been critical of the conduct of the city's humane officer and operation of the animal shelter, which, they said, cannot be contacted during weekend.

Thomas R. Hewlett, 208 Harvey Place, will receive a bachelor's degree in science in recreation degree from Indiana State University in Terre Haute during the 100th commencement exercises June 6.

Domestic Steel Shipments Rise During March
Domestic steel shipments surged in March, as hedgebuying consumers boosted stockpiling against a possible industry shutdown in August following expiration of its present labor contract.

American Iron and Steel Institute reported that mills in the United States sent 9,026,000 tons of steel to their customers during the month. This was a gain of nearly 1,500,000 tons over February's 7,582,000 ton total.

The March jump pushed the first quarter shipment total to 24,134,000 tons. This was, however, 200,000 tons less than the 24,334,000 tons of steel shipped in the first three months of 1970.

The nation's automakers and their suppliers, steel service centers and the construction industry took more than half of March's shipments. A ton alone absorbed nearly a quarter of the total.

Request Meeting
A notice from Blue Cross Insurance, Inc., that its representatives would like to meet with city officials to consider increases in premiums for insurance for city employees has been referred to the city council's Finance Committee.

Mobile TB X-Ray Unit To Return Here This Month

The mobile X-ray unit of the Lewis - Clark Tuberculosis and Respiratory Disease Association will return to the Quad - City area for four days in June to give free X-rays to area residents 18 years of age and over.

The X-rays are to detect unknown tuberculosis cases. Tuberculosis suspects are reported both to the family physician and the official TB control agency in the county. Negative results in the TB test are reported to the individual. The community and industrial survey is financed by voluntary contributions to the TB Christmas Seal campaign.

Pregnant women will not be X-rayed unless they present written requests from their physicians, according to Mrs. William Barth, executive director. Mrs. Barth also warned that TB clinic out-patients should not substitute mobile unit chest X-rays for regularly scheduled clinic examinations.

Dates and locations of the mobile unit in the local area are as follows:
Friday, June 18, at Granite City Hall from 10 a.m. to 1 p.m.

Films are kept on file in the association's office 10 years and are available to the family physician on request.
Further information on the mobile unit or complete schedules may be obtained by writing Lewis-Clark TB&RD Association, P.O. Box 158, Wood River. Requests for schedule must be accompanied by a stamped, self-addressed envelope.
